By Kathleen Michael

The open area at Block C of Bandar Bukit Puchong low-cost flats is equipped with wooden sitting areas and games like chess and jenga for children to enjoy.

THE Subang Jaya Municipal Council will team up with Institut Sultan Iskandar Universiti Teknologi Malaysia (ISI UTM) on a rejuvenation project at Bandar Bukit Puchong low-cost flats.

The pilot project will focus on providing new facilities at the Block C community area.

During the launch of the project, residents met at a Hari Raya do, were asked to give their ideas and select what facilities they hoped to have at the community area.

Among the choices displayed on boards were community herb garden, playground, street soccer corner, barbecue facilities, mini cafe, mailbox area, a bicycle or motorcycle parking bay.

Residents were given stickers to mark the facilities they wanted the most.

The project will also see residents taking part in creating the new space, from idea generation, planning and execution.

(From left) Assoc Prof Gurupiah, Noraini, Bandar Bukit Puchong Joint Management Body head Nor Azmi Roslan and MPSJ Building Department head Nor Azmi Rosli at the launch of the rejuvenation project at the Bandar Bukit Puchong low-cost flats.

Project head Associate Prof Gurupiah Mursib from ISI UTM said the Bandar Bukit Puchong flats was chosen based on residents' commitment to be part of the project.

She said from July to August, the team involving 30 students from the Built Environment Faculty would draw up an inventory of the space and come up with design ideas for facilities sought after by residents.

"If residents are happy with the design proposed, we will look at costing and draw up the work schedule. With good commitment and involvement of residents, we will be able to complete the project by the end of October," she said.

The project is expected to cost about RM120,000 where Bukit Hitam Development Sdn Bhd will bear part of the cost as part of its social corporate responsibility while Subang Jaya Municipal Council will bear the remaining.

MPSJ president Noraini Roslan said residents were asked to be part of the project instead of being passive receivers to ensure they have a sense of responsibility in the upkeep of the community space.

"We want to create an environment where residents feel a sense of belonging and want their surroundings clean instead of having the attitude that cleanliness of the public space is someone else's responsibility."

She added that community engagement at Bandar Puchong Puchong flats would continue next year with the introduction of sustainable programmes such as community gardening and socio economic courses to teach residents how to generate income and improve their livelihood.

诺莱妮：提升居民生活品质·廉价组屋复兴提升

梳邦再也市议会在蒲种富吉镇 (Bandar Bukit Puchong) 组屋进行廉价组屋复兴计划，在半年内提升组屋硬体设备及居民经济能力，以成为其中组屋的模范。

(雪兰莪蒲种30日讯) 梳邦再也市议会在蒲种富吉镇 (Bandar Bukit Puchong) 组屋进行廉价组屋复兴计划，在半年内提升组屋硬体设备及居民经济能力，以成为其中组屋的模范。

富吉镇组屋试跑

梳邦再也市议会主席诺莱妮今早在主持组屋复兴计划推介礼时表示，梳邦再也市议会联合马来西亚工业大学的苏丹依斯干达研究院 (Institut Sultan Iskandar) 及当地居民共同推动廉价组屋复兴计划，并将蒲种富吉镇组屋列为试跑计划。

她表示，该计划为期6个月，并将逐步展开活动，目前是收集资料，居民可在该C座组屋底楼设立的展摊提出意见。

她指出，根据以往的经验，每次在市议会进行提升计划后，就没有延续性及活力，而这项复兴计划，从最初的设计到最终的提升工程，均由居民与工业大学的学生一同完成，因此让居民更有参与感及感到珍惜。

她说，此计划的目标首先锁定在硬体设备的提升，并视居民的需求如何善用组屋的公共空间。

她表示，组屋的公共空间应让所有居民一同使用，惟往往公共空间均被忽略，不获居民的照顾，而出现卫生脏乱情况，更可能会成为黑蚂蚁滋长的空间，在该计划下，希望居民共同照顾居住环境。

建议打造阅读角落

她也说，如今许多孩子在放学回家后没有成人照顾，因此她建议可打造一个阅读角落的空间，让孩子们一同聚集做功课及读书，并要有成人看顾，而不是将孩子独自留在家中。

她指出，除了硬体设备的提升，也会协助提升居民的经济能力，居民可成立一个小组，进行社区菜园计划，或是举办培训班，如烹饪班、手工艺班，让居民掌握一技之长，提升居民的经济能力。

她希望在该组屋复兴计划下，成为其他组屋的一个典范，提升居民的生活品质，让下一代在很好的环境中学习成长。

其他出席者包括廉价组屋复兴计划主任古茹比亚及梳邦再也市议会社会发展组主任诺阿慈米。
